SCHEDULING AN INSPECTION ONLINE

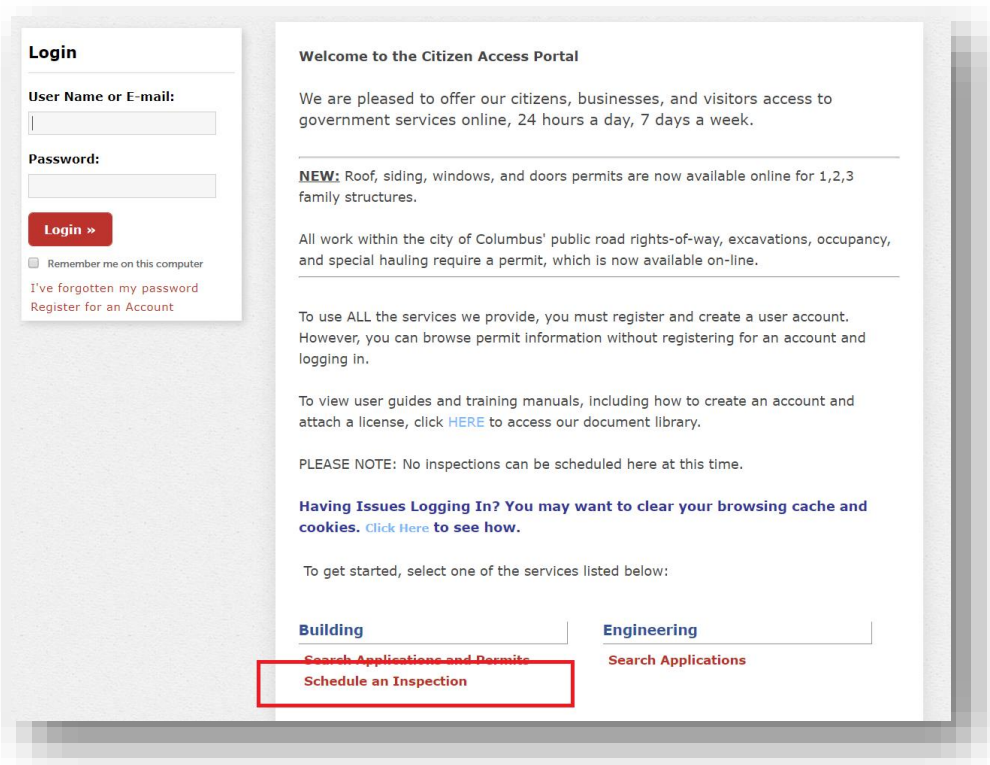

The following describes how to schedule inspections through the Citizen Access Portal. At this time, only standard inspections can be scheduled through the online portal. Certain fire protection related inspections must be requested separately. Download the request form by clicking the link below.

[Fire Protection Inspection Request Form](#)

Requests for after-hours inspections must be submitted by clicking the link below:

[After-Hours Inspection Request Form](#)

Begin clicking the “Schedule an Inspection” link under the Building section. It is important to choose the “Building” section in order to navigate to the appropriate permit.

- Note: It is **NOT** necessary to log in with your Citizen Access public user account credentials to schedule an inspection. However, if you choose to log in, upon clicking the “Schedule an Inspection”, you will be presented with a list of permits associated to your user account. This may make identifying your permit and scheduling your inspection easier.

Next, either search for the permit for which you'd like to schedule an inspection or, if you elected to log in, select your permit from the list of permits associated with your public user account. To search, enter your permit number in the "Record Number" box, and press the search button.

- If you don't know your permit number, you can search by address, parcel or any other criteria listed on the search form. Then select the correct permit from the search results list.

Search for Records

Enter information below to search for records.

- Record Information
- Parcel Number

Inspections

To view available inspection trips, click the "Record Info" dropdown and select "Record Details". Then expand the "More Details" item and open the "Application Information" section.

If you need to buy an inspection trip before you schedule, click the link below:

[Purchase an Inspection Trip](#)

To **request** an after-hours inspection, click the link below:

[Request an After-Hours Inspection](#)

Upcoming (6)

[Schedule an Inspection](#) ←

Select the desired inspection from the list of available options, then press “Continue”.

- Note: If you need to request multiple inspection types for the same permit and day, such as rough and service electric inspections or framing and above ceiling structural inspections, you will need to enter a request for each inspection type. As long as the different types are scheduled on the same date, only one trip will be debited. This does not apply to on-site plan review.

Schedule/Request an Inspection ×

Please refer to the required inspections list specified with your plan approval or permit.

Available Inspection Types (8)

- Framing
- Fire Rated Assembly
- Above Ceiling
- Partial Occupancy
- Final
- Onsite Plan Review
- Consult
- Rough Fireplace

Next, choose the date of the desired inspection, and select the inspection time window. Then press "Continue".

- Note that at this time, only standard inspections can be scheduled through the online portal. Requests for after-hours inspections must be submitted by clicking [here](#).

RESCHEDULING AN INSPECTION ONLINE

The following describes how to reschedule inspections through the Citizen Access Portal. A regular business day inspection can be rescheduled at any time on the Citizen Access Portal provided that the inspector has not arrived on the jobsite. An after-hours inspection cannot be rescheduled online. To change the time of an after-hours inspection, the existing inspection should be cancelled and a new after-hours inspection request should be submitted.

Begin by clicking the “Search Applications and Permits” link under the Building section. It is important to choose the “Building” section in order to navigate to the appropriate permit.

Welcome to the Citizen Access Portal

We are pleased to offer our citizens, businesses, and visitors access to government services online, 24 hours a day, 7 days a week.

NEW: Roof, siding, windows, and doors permits are now available online for 1,2,3 family structures.

All work within the city of Columbus' public road rights-of-way, excavations, occupancy, and special hauling require a permit, which is now available on-line.

To use ALL the services we provide, you must register and create a user account. However, you can browse permit information without registering for an account and logging in.

To view user guides and training manuals, including how to create an account and attach a license, click [HERE](#) to access our document library.

PLEASE NOTE: No inspections can be scheduled here at this time.

Having Issues Logging In? You may want to clear your browsing cache and cookies. [Click Here to see how.](#)

CANCELLING AN INSPECTION ONLINE

The following describes how to cancel inspections through the Citizen Access Portal. A regular business day inspection can be cancelled at any time on the Citizen Access Portal provided that the inspector has not arrived on the jobsite. An after-hours inspection can only be cancelled before 3:30 PM of the business day immediately preceding the scheduled inspection time.

Begin by clicking the “Search Applications and Permits” link under the “Building” section. It is important to choose the “Building” section in order to navigate to the appropriate permit.

The screenshot displays the Citizen Access Portal interface. On the left is a login form with fields for 'User Name or E-mail' and 'Password', a 'Login »' button, and links for 'Remember me on this computer', 'I've forgotten my password', and 'Register for an Account'. The main content area is titled 'Welcome to the Citizen Access Portal' and contains several paragraphs of text, including a 'NEW' announcement about permits for family structures, a note about public road rights-of-way, and instructions on account creation. At the bottom, there are two navigation sections: 'Building' and 'Engineering'. Under 'Building', the links 'Search Applications and Permits' and 'Schedule an Inspection' are visible, with 'Schedule an Inspection' highlighted by a red box. Under 'Engineering', the link 'Search Applications' is visible.

- Note: It is **NOT** necessary to log in with your Citizen Access public user account credentials to schedule an inspection. However, if you choose to log in, upon clicking the “Search Applications and Permits”, you will be presented with a list of permits associated to your user account. This may make identifying your permit and cancelling your inspection easier.

Next, either search for the permit you'd like to cancel an inspection or, if you elected to log in, select your permit from the list of permits associated with your public user account. To search, enter your permit number in the "Record Number" box, and press the search button.

- If you don't know your permit number, you can search by address, parcel or any other criteria listed on the search form. Then select the correct permit from the search results list.
